

Program

Scientific Program

The format of the 10th EMAPI meeting includes Plenary papers by invited speakers combined with oral presentations, poster displays and discussion sessions to complement the following themes:

- Molecular ecology of plant invasions
- Invader-induced trophic cascades
- Novel ecosystems
- Human dimensions of plant invasions
- Mapping & modeling of plant invasions
- Methods for risk analysis in biosecurity
- Managing invasive plants ~ learning from successes and failures
- Plant invasions in protected areas
- Plant invasions in arid systems ~ special problems, special solutions
- Plant invasions in mountains – ecology and management
- Theories in plant invasion ecology
- Nurseries ~ never-ending source of invasive species?
- Biofuels ~ a major source of problems with invasive plants in the future?
- Communication, education & social marketing ~ beyond pretty posters to behaviour change
- General
